AXEMARK

WOOD FLOORING

Sustainable, Durable *Engineered Floors by Axemark*

The construction of our floors — based on pine and spruce cores — delivers outstanding durability and excellent thermal conductivity, making them ideal for modern underfloor heating systems.

About Us

Axemark offers **premium-quality engineered wood flooring** featuring a 3.5 mm oak top layer, responsibly manufactured in Poland and Ukraine with full respect for the natural environment.

Axemark products are FSC®-certified, confirming that the materials used in their production are sourced in accordance with the principles of responsible forest management.

We offer our customers the possibility to choose any of the products presented here in options:

1. → **Unfinished, lacquered or oiled**
2. → **Brushed or not**
3. → **No bevels, 4 or 2 longside bevels**
4. → **0,5mm or 1mm bevel**
5. → **For 3layers T&G or Clic 5G**

All lacquers, oils, and adhesives used in production are **free from harmful substances such as formaldehyde,** ensuring a healthier indoor environment for end users.
